**Shakespeare and Millennial Fiction** - Andrew James Hartley 2017-11-16

How do writers of contemporary fiction incorporate Shakespeare - the man, his work and his cultural legacy? This collection brings together some of the leading voices in the scholarship of Shakespearean adaptation and appropriation to examine the ways in which writers have used literary culture's most prominent historical figure to their own ends since the year 2000. The essays consider the representation of the man himself, the rethinking of his stories - often in pointed defiance of the original - and explorations of the plays radically repositioned in time and space. In the process the collection reveals which versions of Shakespeare are most current in contemporary culture and education, even as they remake them in the terms of the present, often exploiting the new notions of genre, of publishing technologies, and of political identity which have evolved so drastically since the turn of the last century.

**Shakespearean Spaces in Australian Literary Adaptations for Children and Young Adults** - Michael Marokakis 2022-07-29

Shakespearean Spaces in Australian Literary Adaptations for Children and Young Adults offers a comprehensive examination of Shakespearean adaptations written by Australian authors for children and Young Adults. The 20-year period crossing the late-twentieth and early twenty-first centuries came to represent a diverse and productive era of adapting Shakespeare in Australian literature. As an analysis of Australian and international marketplaces, physical and imaginative spaces and the body as a site of meaning, this book reveals how the texts are ideologically bound to and disseminate Shakespearean cultural capital in contemporary ways. Combining current research in children's literature and Bourdieu's theory of cultural capital deepens the critical awareness of the status of Australian literature while illuminating a corpus of literature underrepresented by the pre-existing concentration on adaptations from other parts of the world. Of particular interest is how these adaptations merge Shakespearean worlds with the spaces inhabited by young people, such as the classroom, the stage, the imagination and the gendered body. The readership of this book would be academics, researchers and students of children's literature studies and Shakespeare studies, particularly those interested in Shakespearean cultural theory, transnational adaptation and literary appropriation. High school educators and pre-service teachers would also find this book valuable as they look to broaden and strengthen their use of adaptations to engage students in Shakespeare studies.

**The Shakespearean International Yearbook** - Stuart Sillars 2017-05-15

This eighth volume of The Shakespearean International Yearbook presents a special section on 'European Shakespeares', proceeding from the claim that Shakespeare's literary craft was not just native English or British, but was filtered and fashioned through a Renaissance awareness that needs to be recognized as European, and that has had effects and afterlives across the Continent. Guest editors Ton Hoenselaars and Clara Calvo have constructed this section to highlight both how the spread of 'Shakespeare' throughout Europe has brought together the energies of a wide variety of European cultures across several centuries, and how the inclusion of Shakespeare in European culture has been not only a European but also a world affair. The Shakespearean International Yearbook continues to provide an annual survey of important issues and developments in contemporary Shakespeare studies. Contributors to this issue come from the US and the UK, Spain, Switzerland and South Africa, Canada, The Netherlands, India, Portugal, Greece, France, and Hungary. In addition to the section on European Shakespeares, this volume includes essays on the genre of romance, issues of character, and other topics.
