2012-12-30

In this book, Katrina Hazzard-Donald explores African Americans' experience and practice of the herbal, healing folk belief tradition known as Hoodoo. Working against conventional scholarship, Hazzard-Donald argues that Hoodoo emerged first in three distinct regions she calls "regional Hoodoo clusters" and that after the turn of the nineteenth century, Hoodoo took on a national rather than regional profile. The first interdisciplinary examination to incorporate a full glossary of Hoodoo culture, *Mojo Workin': The Old African American Hoodoo System* lays out the movement of Hoodoo against a series of

watershed changes in the American cultural landscape. Throughout, Hazzard-Donald distinguishes between "Old tradition Black Belt Hoodoo" and commercially marketed forms that have been controlled, modified, and often fabricated by outsiders; this study focuses on the hidden system operating almost exclusively among African Americans in the Black spiritual underground.

**Black Magic** - Yvonne P. Chireau 2006-11-20

"Chireau has written a marvelous text on an important dimension of African American religious culture. Expanding beyond the usual focus of scholarship on Christianity, she describes and analyzes the world of magical-medical-religious practice, challenging hallowed distinctions among "religion" and "magic."

Anyone interested in African American religion will need to reckon seriously with Chireau's text on conjure."—Albert J. Raboteau, Princeton University "Deprived of their own traditions and defined as chattel, enslaved Africans formed a new orientation in America.

Conjuring—operating alongside of and within both the remnants of African culture and the acquired traditions of North America—served as a theoretical and practical mode of deciphering and divining within this, enabling them to create an alternate meaning of life in the New World. Chireau's is the first full-scale treatment of this important dimension of African American culture and religion. A wonderful book!"—Charles H.

Long, Professor of History of Religions University of California, Santa Barbara and author of *Significations: Signs, Symbols and Images in the Interpretation of Religion*

**Light, Bright, and Damned Near White** - Stephanie Rose Bird 2009

The election of America's first biracial president brings the question dramatically to the fore. What does it mean to be biracial or tri-racial in the United States today? Anthropologist Stephanie Bird takes us into a world where people are struggling to be heard, recognized, and celebrated for the racial diversity one would think is the epitome of America's melting pot persona. But being biracial or tri-racial brings unique challenges—challenges including prejudice, racism and, from within racial groups, colorism. Yet America is now experiencing a multiracial baby boom, with at least three states logging more multiracial baby births than any other race aside from Caucasians. As the Columbia Journalism Review reported, American demographics are no longer black and white. In truth, they are a blended, difficult-to-define shade of brown. Bird shows us the history of biracial and tri-racial people in the United States, and in European families and events. She presents the personal traumas and victories of those who struggle for recognition and

acceptance in light of their racial backgrounds, including celebrities such as golf expert Tiger Woods, who eventually quit trying to describe himself as Cablanasin, a mix including Asian and African American. Bird examines current events, including the National Mixed Race Student Conference, and the push to dub this Generation MIX. And she examines how American demographics, government, and society are changing overall as a result. This work includes a guide to tracing your own racial roots. This volume explores the history, challenges, and psychological issues for—as well as prejudice against—people who have a mixed ancestry leaving them at neither end of the polar spectrum, neither Black nor White, but biracial or tri-racial.
