Technology Entrepreneurship - Natasha Evers
2020-12-12

This second edition of the critically acclaimed core textbook provides students from technology and science based backgrounds with the theoretical knowledge and practical skills required to transform innovative ideas into commercially viable businesses for profit or social ends. Blending theory, policy and practice in a manner that is accessible to readers with little prior knowledge of business commercialisation, it offers a framework for understanding the entrepreneurial process for technological ideas. The book provides students with comprehensive guidance on the specialized field of 'technopreneurship'. It provides the tools and frameworks required for managing, commercialising and marketing technological innovation. With real life examples and case studies from a range of countries and industries, it will equip students with the understanding required to successfully launch their product. This text caters for undergraduate and postgraduate students studying technology entrepreneurship modules on engineering, science and computing technology programmes. New to this edition: -All chapters updated to reflect the evolution of theory and practice in the field -New cases on digital entrepreneurship, growth and scaling -Extended geographical coverage of case studies -Entrepreneurial practices updated to include recent research - Strategic context of business models, business growth and scaling, digital entrepreneurship,

entrepreneurial marketing, organization design and crowdfunding developed and updated.

Organizational Change - Laurie Lewis
2011-03-21

Organizational Change integrates major empirical, theoretical and conceptual approaches to implementing communication in organizational settings. Laurie Lewis ties together the disparate literatures in management, education, organizational sociology, and communication to explore how the practices and processes of communication work in real-world cases of change implementation. Gives a bold and comprehensive overview of communication research and ideas on change and those who bring it about Fills in an important piece of the applied communication puzzle as it relates to organizations Illustrated with student friendly, real life case studies from organizations, including organizational mergers, governmental or nonprofit policy or procedural implementation, or technological innovation Winner of the 2011 Organizational Communication NCA Division Book of the Year **International Entrepreneurship** - Robert D. Hisrich 2015-07-06 Combining comprehensive coverage with a wide variety of real-life cases, International Entrepreneurship: Starting, Developing, and Managing a Global Venture gives entrepreneurs the tools they need to successfully launch international ventures in today's hypercompetitive world. Bestselling author Dr. Robert D. Hisrich helps students and

entrepreneurs develop global business plans, select international opportunities, and determine the best entry strategy. The text also covers practical considerations such as legal concerns, the global monetary systems, global marketing, and global human resource management for entrepreneurs. The fully updated Third Edition provides increased attention to culture and reflects recent changes in our increasingly globalized world. Readers will also be exposed to new cases featuring international activities of entrepreneurs and ventures throughout the world.

Careful to identify failures as well as successes, Successfully Launching New Ventures is a straightforward guide to starting one's own business.

Small Business Management - 2013

Disciplined Entrepreneurship - Bill Aulet 2013-08-12

24 Steps to Success! Disciplined Entrepreneurship will change the way you think about starting a company. Many believe that entrepreneurship cannot be taught, but great entrepreneurs aren't born with something special - they simply make great products. This book will show you how to create a successful startup through developing an innovative product. It breaks down the necessary processes into an integrated, comprehensive, and proven 24-step framework that any industrious person can learn and apply. You will learn: Why the "F" word - focus - is crucial to a startup's success Common obstacles that entrepreneurs face - and how to overcome them How to use innovation to stand out in the crowd - it's not just about

technology Whether you're a first-time or repeat entrepreneur, Disciplined Entrepreneurship gives you the tools you need to improve your odds of making a product people want. Author Bill Aulet is the managing director of the Martin Trust Center for MIT Entrepreneurship as well as a senior lecturer at the MIT Sloan School of Management. New Venture Creation - Paul Burns 2018-02-13

If you are looking for an engaging textbook, rich in learning features, which will help you to guide your students through the process of developing and launching a start-up, this is it. With his innovative New Venture Creation Framework, Paul Burns breaks the venture creation process up into three key phases: Research, Business Model Development, and Launch. At every stage crucial steps and considerations are revealed, providing comprehensive coverage of the subject. Practical advice is combined with academic research, enabling you to run a course which is both relevant and rigorous. The second edition of this popular textbook is essential reading for any undergraduate or postgraduate course in new venture creation. It will also prove useful for shorter courses on entrepreneurship and in enterprise centres and entrepreneurship hubs. New to this Edition: - Thought-provoking video interviews with author Paul Burns examine key questions - Video and audio cases provide an insight into life as an entrepreneur - A fictional running case study offers insight on thematic concepts as applied to one example - A greater variety of case studies, ranging from well-known businesses to smaller, local initiatives - A new Workbook design, with space for students to

write their answers and ideas - Closer alignment of the content to the innovative New Venture Creation Framework, resulting in a textbook that is clear and easy to follow - An interactive ebook version of the text available for purchase Accompanying online resources for this title can be found at bloomsburyonlineresources.com/new-venture-creation-2e. These resources are designed to support teaching and learning when using this textbook and are available at no extra cost. Preparing Effective Business Plans - Bruce R. Barringer 2016

Entrepreneurship - Andrew Zacharakis
2019-12-05

Entrepreneurship, 5th Edition helps aspiring entrepreneurs understand the process of starting a new venture and appreciate the vital role of entrepreneurship in the economy. This accessible textbook explains the steps involved in starting a new company, and offers insights on engaging with startups as investors, bankers, accountants, lawyers, vendors, customers, and employees. Delving into the real-world trials and tribulations of entrepreneurship, the text covers every stage of the entrepreneurial process, from searching for an opportunity and molding it into an attractive product or service, to launching, growing, and eventually harvesting the new venture. The fully revised and updated fifth edition integrates core concepts of entrepreneurship and practical case studies—enabling students to develop an inclusive perspective on how businesses are born, grow, and succeed or fail. The authors explore the entrepreneurial competitiveness of nations throughout the world, describe the critical factors for starting a new enterprise and building it into a successful business, and demonstrate how to build a workable business model. Clear, straightforward chapters cover each essential area of entrepreneurship, including marketing, strategy, team building, financial projections, business planning, and more.

Launching New Ventures: An Entrepreneurial Approach - Kathleen R. Allen 2015-01-01
LAUNCHING NEW VENTURES, 7e provides tomorrow's entrepreneurs with the tools to launch a successful new business in a global

marketplace. The text follows the logical development process: from initial idea, to developing and testing a business model, to designing a business and preparing for growth. The seventh edition represents the most current thoughts, ideas, and practices in the field of entrepreneurship. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Financing New Ventures - Geoffrey Gregson
2014-01-31

Many business ventures today are looking to attract external financing, with an emphasis on business angel investment. Inside this text, the author incorporates the views of business angels, venture capitalists, entrepreneurs, and legal advisors; and draws upon the latest academic thinking on financing new ventures, providing comparisons between business angel and venture capital investing to further inform the reader. The concepts, principles, and guidelines presented can help you and any entrepreneur, business support agency, business student, and others interested in raising external investment and in developing an “investable” business. The book is organized into seven chapters covering: • Fundamental concepts of entrepreneurial venturing and entrepreneurial finance • Market conditions from which investable businesses emerge • The investment process • Deal negotiations • The post-investment relationship between entrepreneur and investor • Recent trends affecting how entrepreneurs raise finance that include strategic exits, “super angels,” and the emergence of “crowdfunding”

New Venture Creation - Jeffrey A. Timmons
2007

This new 7th Edition of *New Venture Creation: Entrepreneurship for the 21st Century*, is the most heavily revised edition since its existence, yet it still maintains the market defining “Timmons Model of the Entrepreneurial Process.” As always, Timmons & Spinelli cover the process of getting a new venture started, growing the venture, and successfully harvesting it. Through text, case studies, and hands-on exercises, this how-to text guides students in discovering the concepts of entrepreneurship and the competencies, skills, tools, and

experience to equip students to successfully launch a new venture and recognize entrepreneurial opportunities.

Technology Ventures - Richard C. Dorf 2008

Technology Ventures is the first textbook to thoroughly examine a global phenomenon known as technology entrepreneurship. Now in its second edition, this book integrates the most valuable entrepreneurship and technology management theories from some of the world's leading scholars and educators with current examples of new technologies and an extensive suite of media resources. Dorf and Byers comprehensive collection of action-oriented concepts and applications provides both students and professionals with the tools necessary for success in starting and growing a technology enterprise. Technology Ventures details the critical differences between scientific ideas and true business opportunities.

Digital Entrepreneurship - Mariusz Soltanifar
2020-11-13

This open access book explores the global challenges and experiences related to digital entrepreneurial activities, using carefully selected examples from leading companies and economies that shape world business today and tomorrow. Digital entrepreneurship and the companies steering it have an enormous global impact; they promise to transform the business world and change the way we communicate with each other. These companies use digitalization and artificial intelligence to enhance the quality of decisions and augment their business and customer operations. This book demonstrates how cloud services are continuing to evolve; how cryptocurrencies are traded in the banking industry; how platforms are created to commercialize business, and how, taken together, these developments provide new opportunities in the digitalized era. Further, it discusses a wide range of digital factors changing the way businesses operate, including artificial intelligence, chatbots, voice search, augmented and virtual reality, as well as cyber threats and data privacy management.

“Digitalization mirrors the Industrial Revolution’s impact. This book provides a complement of perspectives on the opportunities emanating from such a deep seated change in our economy. It is a comprehensive collection of

thought leadership mapped into a very useful framework. Scholars, digital entrepreneurs and practitioners will benefit from this timely work.”

Gina O’Connor, Professor of Innovation Management at Babson College, USA “This book defines and delineates the requirements for companies to enable their businesses to succeed in a post-COVID19 world. This book deftly examines how to accomplish and achieve digital entrepreneurship by leveraging cloud computing, AI, IoT and other critical technologies. This is truly a unique “must-read” book because it goes beyond theory and provides practical examples.” Charlie Isaacs, CTO of Customer Connection at Salesforce.com, USA “This book provides digital entrepreneurs useful guidance identifying, validating and building their venture. The international authors developed new perspectives on digital entrepreneurship that can support to create impact ventures.” Felix Staeritz, CEO FoundersLane, Member of the World Economic Forum Digital Leaders Board and bestselling author of FightBack, Germany

New Venture Management - Donald F. Kuratko
2020-12-28

The third edition of this practical textbook provides an introduction to the world of new and emerging ventures and to the fundamentals of effective new venture management, including such diverse activities as planning, marketing, financing, and growth. This textbook is divided into four distinct parts, guiding readers through the entire new venture management process and focusing in turn on ideas and opportunities, planning, finance, and management challenges. All chapters of this revised edition feature international cases, and the complete business plan has been replaced with a contemporary version. Other new elements to the third edition include: Expanded coverage of the Lean Startup methodology Improved focus on the development and importance of teams A new section on the emergence of equity crowdfunding Further discussion of ethics and the dangers of dramatic scaling Presented in an easy-to-understand style, this book will be a valuable resource for undergraduate and postgraduate students in entrepreneurship and new venture management classes as well as active new venture owners and managers.

Online resources include an instructor's manual, test bank, PowerPoint slides, and additional materials to aid instructors and students in applying their knowledge.

Careful to identify failures as well as successes, Successfully Launching New Ventures is a straightforward guide to starting one's own business.

Marketing for Entrepreneurs - Frederick G. Crane 2009-09-16

One of the primary reasons most often cited for the failure of a new venture is the entrepreneur's inability to identify and exploit the 'right idea'. This is directly connected to the concepts and principles of marketing, specifically: knowing what to produce and knowing what not to produce. Additionally, even if the entrepreneur has the right idea, many experts cite weak marketing efforts (marketing execution) as another reason for venture failure. Marketing for Entrepreneurs moves beyond the classic 4Ps and demonstrates the application of marketing in an entrepreneurial context. Traditional marketing texts are incapable of addressing marketing concepts directly applicable to the entrepreneur's unique situation. Furthermore, general entrepreneurship books are also not applicable because they tend to focus on management teams or the development of business plans while failing to address critical marketing dimensions.

Managing Organizations in the United Arab Emirates - V. Bodolica 2014-07-24

Managing Organizations in the United Arab Emirates seeks to familiarize readers with the nature of doing business and managing organizations in the Middle East by bringing

together case studies on United Arab Emirate (UAE) organizations, one of the most dynamic and rapidly growing economies in the world.

Choosing a Form of Business Organization - Robert N. Davies 1963

Born Global Firms - S. Tamer Cavusgil
2009-08-01

This book helps managers and scholars understand the born-global phenomenon. We offer a comprehensive treatment of born globals, from distinctive features of these companies, to strategies that they use for international success, to implications of the phenomenon for international small- and medium-sized enterprises. We review useful theories and frameworks, as well as introduce a new field based on the born-global phenomenon - international entrepreneurship.

Fundamentals for Becoming a Successful Entrepreneur - Malin Brannback 2015-11-13

This is the complete, up-to-date guide to creating a successful new venture. Using real-life examples, it helps you assemble every piece of the puzzle: you, your team, your opportunity, your business concept and revenue model, your resources, and your successful launch, execution, and growth. The authors illuminate entrepreneurial mindsets, motivation, attitudes, and leadership, and cover the entire process of starting a company, from idea through your first four years of operations. You'll learn how to recognize, define, test, and exploit opportunities; transform ideas into revenue models that earn sustainable value; demonstrate viability to funders; establish a strong ethical and legal foundation for your concept; and build a thriving team to execute on it.

The Harvard Business Review Entrepreneur's Handbook - Harvard Business Review 2018-01-23

In the HBR Entrepreneur's Handbook you'll find: Step-by-step guidance through the entrepreneurial process Concise explanations of the latest research and thinking on entrepreneurship from Harvard Business Review contributors such as Marc Andreessen and Reid Hoffman Time-honed best practices Stories of real companies, from Airbnb to eBay You'll learn: Which skills and characteristics make for the best entrepreneurs How to gauge potential opportunities The basics of business models and competitive strategy How to test your assumptions--before you build a whole business How to select the right legal structure for your company How to navigate funding options, from venture capital and angel investors to accelerators and crowdfunding How to develop sales and marketing programs for your venture What entrepreneurial leaders must do to build culture and set direction as the business keeps growing HBR Handbooks provide ambitious professionals with the frameworks, advice, and tools they need to excel in their careers. With step-by-step guidance, time-honed best practices, real-life stories, and concise explanations of research published in Harvard Business Review, each comprehensive volume helps you to stand out from the pack--whatever your role.

What's Stopping You? - Bruce Barringer
2008-05-16

"This book dispels the myths surrounding the process of starting a business, and gives hope and encouragement to people who would like to give it a try." - Tim Berry , Founder and CEO, Palo Alto Software Creators of the World's Most Popular "Bruce Barringer and Duane Ireland's new book, What's Stopping You? is an insightful

and thought-provoking examination of nine common myths that discourage individuals from starting new businesses. ... This book is much-needed and long overdue.... The value of What's Stopping You? is that it effectively debunks the false premises that too often preclude acts of business start up. What's Stopping You? is an encouraging, instructive, and eloquently written book that would be a valuable addition to any aspiring entrepreneur's bookshelf." Jeffrey G. Covin , Samuel and Pauline Glaubinger Professor of Entrepreneurship, Kelley School of Business, Indiana University, Bloomington, Indiana "Over the years I have observed many seemingly great business opportunities never get off the ground. Quite often, what holds these aspiring entrepreneurs back are common misconceptions about the difficulties and risks of starting a new business. In What's Stopping You?, Professors Barringer and Ireland systematically break down the myths that hold many entrepreneurs back from pursuing their dreams." Jeffrey R. Cornwall , The Jack C. Massey Chair in Entrepreneurship, Belmont University, Nashville, Tennessee "Barringer and Ireland simultaneously demystify start-up misconceptions and empower readers to explore their own opportunity with renewed passion. Many prospective entrepreneurs feel trapped by myths, the authors carefully detail the myth's fallacies and encourage the reader to see beyond start-up stereotypes. Future and experienced entrepreneurs have much to learn from What's Stopping You?" Sarah Schupp , Founder/CEO, University Parent Media, Boulder, Colorado "Creating your own business from scratch can be a mental, emotional, and financial roller coaster ride. Bruce Barringer and Duane Ireland's book provides a 'voice of reason' and helps give you the confidence to realize you can do it. They recognize that starting a business is hard work, but that it is attainable--and that you should celebrate your accomplishments every step of the way." Jan Stephenson Kelly , Cofounder/CEO, Spark Craft Studios, Cambridge, MA Business Plan Software Follow Your Dream! Start Your Own Winning Business—Now! •Get past the myths that keep you from making the leap •Gain the practical skills and confidence you need to succeed •Quickly evaluate business ideas and pick a

winner • Launch your company and watch it grow and profit Build the business you've always dreamed of! Take control of your future and achieve the breakthrough success that's only possible when you're working for yourself. You can do it—and this book will show you how. Forget the myths that have been standing in your way. You don't need to be rich. You don't need extensive business experience. You don't need to be a genius. You don't need a revolutionary product or service. You can handle the risk, the competition, and the challenges. The proof's on every page of this book: case studies of "ordinary" people building great businesses and practical techniques you can use, too—every step of the way!

Strategic Management - Frank T. Rothärmel
2013

Combining quality and user-friendliness with rigor and relevance, Frank T. Rothaermel synthesizes theory, empirical research, and practical applications in a breakthrough new text designed to prepare students for the types of challenges they will face as managers in the globalized and turbulent business environment of the 21st century. This new textbook, written with a single, strong voice, weaves together classic and cutting-edge theory with in-chapter cases and strategy highlights, to teach students how companies gain and sustain competitive advantage. OneBook...OneVoice...OneVision
Entrepreneurship - Bruce R. Barringer
2018-01-16

Entrepreneurship: Successfully Launching New Ventures explores the allure of entrepreneurship, teaching students how to successfully launch and grow their own business. Using real business profiles of inspiring young entrepreneurs, the text engages students through relevant examples they can easily relate to. The 6th Edition examines entrepreneurship through an easy, four-step process that clearly outlines both the excitement and difficulty of launching a new company. Careful to identify failures as well as successes, the text is a guide to starting a new business.

Entrepreneurship Strategy - Lisa K. Gundry
2006-08-14

In this engaging and practical book, authors Lisa K. Gundry and Jill R. Kickul uniquely approach entrepreneurship across the life cycle of

business growth—offering entrepreneurial strategies for the emerging venture, for the growing venture, and for sustaining growth in the established venture. Written from the point of view of the founder or the entrepreneurial team, the book offers powerful and practical tools to increase a venture's potential for success and growth.

The Origin and Evolution of New Businesses
- Amar Bhide 2003-10-16

Few would deny the crucial role that entrepreneurs play in our increasingly global economy—but exactly what is this vital, yet loosely defined business force we call the entrepreneurial spirit? This landmark study is the first to examine analytically the nature of the opportunities that entrepreneurs pursue, the problems they face, the traits they require, and the social and economic contributions they make. Until recently, entrepreneurs have been largely ignored in modern economic theory. But at the dawn of a networked age, marked by the advent of e-business and the home office, there's no question that entrepreneurs have recaptured the popular imagination. Studies now show that most men and women dream of starting their own businesses rather than rising through the corporate ranks. Yet in spite of increased attention by many of today's leading business schools, entrepreneurship has remained largely a mystery, an apparently intuitive sense of values possessed by certain individuals.; This book targets the issues central to successful start-up ventures, such as endowments and opportunities, planning versus adaptation, securing resources, corporate initiatives, venture capital, revolutionary ventures and the evolution of fledgling businesses. Focusing on hard data and evaluations of numerous start-up businesses, including many of today's major industry leaders, this book presents a new economic model—a key to understanding the guts, determination, luck and skills that constitute the underpinnings of corporate success. Written in clear, concise prose, *The Origin and Evolution of New Businesses* goes behind the charts and graphs of business theory to the true heart of success. It is essential reading for business students, would-be entrepreneurs, or executives wanting to incorporate the vitality of the entrepreneurial

spirit into their organization.

Entrepreneurial Strategy - Dean A. Shepherd
2021-07-19

This open access book focuses on explaining differences amongst organizations regarding various attributes, forms, and outcomes. By focusing on the “how” of new venture creation and management to produce well-established organizations, the authors aim to increase our understanding of the antecedents of most management research assumptions. New ventures are the source of most newly created jobs generated in an economy, new industries and markets, innovative products and services, and new solutions to economic, social, and environmental problems. However, most management research assumes a well-established organization as the starting point of their theorizing. Building on the notion of guided attention, it details how entrepreneurs can allocate their transient attention to identify potential opportunities from environmental change and how entrepreneurs allocate their sustained attention to form beliefs about radical and incremental opportunities requiring entrepreneurial action. The authors explain how entrepreneurs build such communities and engage community members over time to co-construct potential opportunities for new venture progress. Using the lean startup framework, they connect the dots between the theorizing on identifying and co-constructing potential opportunities and the startup of new ventures. This leads to a new overarching framework based on are (1) co-creating a startup, (2) organizing a startup, and (3) performing a startup to bring together the many disparate threads of research on new ventures. The authors then theorize on the importance of knowledge in organizational scaling. Based on cutting-edge research from the leading entrepreneurship journals, this book expands knowledge on the cognitive aspect of the new venture creation process.

Why Startups Fail - Tom Eisenmann
2021-03-30

If you want your startup to succeed, you need to understand why startups fail. “Whether you’re a first-time founder or looking to bring innovation into a corporate environment, Why Startups Fail is essential reading.”—Eric Ries, founder and

CEO, LTSE, and New York Times bestselling author of The Lean Startup and The Startup Way Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn’t answer it. So he launched a multiyear research project to find out. In Why Startups Fail, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • Bad Bedfellows. Startup success is thought to rest largely on the founder’s talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly. • False Starts. In following the oft-cited advice to “fail fast” and to “launch before you’re ready,” founders risk wasting time and capital on the wrong solutions. • False Promises. Success with early adopters can be misleading and give founders unwarranted confidence to expand. • Speed Traps. Despite the pressure to “get big fast,” hypergrowth can spell disaster for even the most promising ventures. • Help Wanted. Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both. • Cascading Miracles. Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, Why Startups Fail is not merely a guide to preventing failure but also a roadmap charting the path to startup success.

The Founder's Dilemmas - Noam Wasserman
2013-04

The Founder's Dilemmas examines how early decisions by entrepreneurs can make or break a startup and its team. Drawing on a decade of research, including quantitative data on almost ten thousand founders as well as inside stories of founders like Evan Williams of Twitter and

Tim Westergren of Pandora, Noam Wasserman reveals the common pitfalls founders face and how to avoid them.

Organization Change - W. Warner Burke
2017-03-16

Change is a constant in today's organizations. Leaders, managers, and employees at all levels must understand both how to implement planned change and effectively handle unexpected change. The Fifth Edition of the *Organization Change: Theory and Practice* provides an eye-opening exploration into the nature of change by presenting the latest evidence-based research to discuss a range of theories, models, and perspectives on organization change. Bestselling author, W. Warner Burke, skillfully connects theory to practice with modern cases of effective and ineffective organization change, recent examples of transformational leadership and planned and revolutionary change, and best practices to successfully influence change. This fully-updated new edition also includes a new chapter on healthcare and government organizations, offering practical applications for non-profit organizations.

Entrepreneurial Leadership - Joel Peterson
2020-04-21

Make a lasting impact by launching new initiatives, inspiring others, and championing innovative approaches with this from-the-trenches guide by trusted executive mentor, entrepreneur, and leadership expert Joel Peterson. Many leaders see their roles as presidents/managers, with a primary focus on keeping results consistent with past performance and on budget. These kinds of leaders make important contributions but rarely leave a mark on the businesses they serve. For those wanting to make a lasting impact, new skills are required. Joel Peterson calls these higher-level leaders "entrepreneurial leaders," and they create durable enterprises that deliver on their promise. After three careers and demanding roles as CFO, CEO, chairman, lead director, adjunct professor, founder, author, entrepreneur and investor, Joel Peterson is often sought as a mentor and coach by leaders and aspiring leaders. He has worked with all types of leaders and considers the entrepreneurial leader to be the highest level of influence. In

Entrepreneurial Leadership, Peterson lays out a path to achieving this summit with a series of leadership maps organized around the four essential basecamps: Establishing Trust Creating a Sense of Mission Building a Cohesive Team Executing and Delivering Results These core philosophies, while easy to summarize, can be extremely difficult to implement. This book of maps and mindsets is aimed at those who hope to lead others, help them achieve their best, break new barriers, change the status quo, create a legacy, develop a brand, and enjoy a life-altering experience. Let *Entrepreneurial Leadership* guide you on your journey.

Entrepreneurship - Bruce R. Barringer
2007-03-01

Undergraduate course in Entrepreneurship and New Venture creation. *Entrepreneurship 2/e* takes students on the entire journey of launching a new venture, with a unique emphasis on the front end of the entrepreneurial process.

Entrepreneurship - BRUCE. IRELAND BARRINGER (R.) 2021-04

Entrepreneurship Skills for New Ventures - David C. Kimball 2020-10-30

As business schools expand their entrepreneurship programs and organizations seek people with entrepreneurial skills, it has become clear that the skills and mindset of an entrepreneur are highly valued in all business contexts. This latest edition of *Entrepreneurship Skills for New Ventures* continues to focus on helping students develop entrepreneurial skills, whether they seek to become entrepreneurs or employees. Focusing on the entrepreneurial start-up process, the fourth edition of *Entrepreneurship Skills for New Ventures* takes the reader through the steps of selecting, planning, financing, and controlling the new venture. The authors cover multiple forms of new ventures, as well as ways to utilize entrepreneurial skills in other contexts, encouraging students to engage with the material and apply it to their lives in ways that make sense for them. Skill development features include: New exercise on Analyzing the Lean Entrepreneurship Model Option Entrepreneurial profiles of small business owners Personal applications for students to apply questions to their new venture or a current business Global

and domestic cases Elevator pitch assignments which put students in the venture capitalist position Application exercises and situations covering specific text concepts Business plan prompts to help students construct a business plan over the course of a semester Featuring pedagogical tools like review questions and learning outcomes, and online materials which expand upon skill development and offer instructor resources, the fourth edition of *Entrepreneurship Skills for New Ventures* is the perfect resource for instructors and students of entrepreneurship.

Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

ENTREPRENEURSHIP - BRUCE. IRELAND BARRINGER (R.) 2021

Launching a Business - Bruce Barringer 2013-02-15

This book focuses on the steps a new business owner must take in the first 100 days of starting a business to establish a lasting and successful enterprise. If you're thinking of opening up your own business, you'll need this book. This is a hands-on book that focuses on the tasks that you or any new business owner must complete in the first 100 days of launching a business. Think of it this way: Imagine you've conceived a business idea, written a business plan, raised seed capital, and are set to launch your business on October 1. Now, what would you actually do on October 1, October 2, October 3, and so forth? How would you set your priorities? How would you know which tasks are the most urgent? Although the answers to these questions vary depending on the business, there are a set of key activities that all businesses must accomplish to

get their businesses off to a good (and legally proper) start. This book provides examples that include securing proper business licenses and permits; setting up a bookkeeping system; negotiating a lease; buying insurance; entering into contracts with vendors; recruiting and hiring employees; and making the first sale. Broader issues such as developing a business model and building a brand will also be touched upon, but the primary focus of this book is getting you focused on the practical issues that you'll need, as a new business owner, to accomplish, and accomplish correctly, and to get your business off to a good start. To help you prioritize and track the activities that must be completed at the onset of a business, this book will teach you how to set up a "First 100 Days Plan," with the template (titled First 100 Days Plan) included in this book.

Handbook of Research on Nascent Entrepreneurship and Creating New Ventures - Carrizo Moreira, António 2020-10-09

Due to the 2008-2009 crisis, the United Nations 2030 agenda for sustainable development, and the COVID-19 pandemic, the role of entrepreneurship has become more critical in most economies. Moreover, emerging protectionist policies are further encouraging the emergence of new entrepreneurial projects, particularly to replace goods and services traditionally provided by other countries. Understanding current challenges and best practices in nascent entrepreneurship is integral for the successful launching of new ventures to support the revitalization of economies and achieve sustainability. The Handbook of Research on Nascent Entrepreneurship and Creating New Ventures is a crucial reference source that covers the latest empirical research findings in the field of entrepreneurship and addresses the obstacles entrepreneurs face in these recent challenging times. The book embraces a pluralistic perspective from academicians currently navigating nascent entrepreneurship and key concepts for launching successful new ventures. Covering topics that include government support programs, spin-off companies, leadership, strategic entrepreneurship, and crowdfunding, this book is targeted towards entrepreneurs, professionals, academicians, researchers, and

students.
