[A Social and Economic History of Central European Jewry](#) - Peter J. Kitson 2021-11-30

This volume is a pioneering effort to examine the social, demographic, and economic changes that befell the Jewish communities of Central Europe after the dissolution of the Habsburg Empire. It consists of studies researched and written especially for this volume by historians, sociologists, and economists, all specialists in modern Central European Jewish affairs. The era of national rivalry, economic crises, and political confusion between the two World Wars has been preceded by a pre-World War I epoch of Jewish emancipation and assimilation. During that period, Jewish minorities had been harbored from violent anti-Semitism by the Empire, and they became torchbearers of industrialization and modernization. This common destiny encouraged certain common characteristics in the three major components of the Empire, Austria, Hungary, and the Czech territories, despite the very different origins of the well over one million Jews in those three lands. The disintegration of the Habsburg Empire created three small, economically marginal national states, inimical to each other and at liberty to create their own policies toward Jews in accord with the preferences of their respective ruling classes. Active and openly discriminatory anti-Semitic measures resulted in Austria and Hungary. The only liberal heir country of the Empire was Czechoslovakia, although simmering anti-Semitism and below surface discrimination were widespread in Slovakia. While one might have expected Jewish communities to return to their pre-World War I tendencies to go their independent ways after the introduction of these policies, social and economic patterns which had evolved in the Habsburg era persisted until the Anschluss in Austria, German occupation in Czechoslovakia, and World War II in Hungary. Studies in this volume attest to continuing similarities among the three Jewish communities, testifying to the depth of the Empire's long lasting impact on the behavior of Jews in Central Europe.

**The Architecture of Narrative Time** - Erica Wickerson 2017-05-26

Time matters to all of us. It dominates everyday discourse: diaries, schedules, clocks, working hours, opening times, appointments, weekdays and weekends, national holidays, religious festivals, birthdays, and anniversaries. But how do we, as unique individuals, subjectively experience time? The slowness of an hour in a boring talk, the swiftness of a summer holiday, the fleetingness of childhood, the endless wait for pivotal news: these are experiences to which we all can relate and of which we commonly speak. How can a writer not only report such experiences but also conjure them up in words so that readers share the frustration, the excitement, the anticipation, are on tenterhooks with a narrator or character, or in melancholic mourning for a time long-since passed, which we never experienced ourselves? Erica Wickerson suggests that the evocation of subjective temporal experience occurs in every sentence, on every page, at every plot turn, in any narrative. *The Architecture of Narrative Time* offers a new template for understanding narrative time that combines close readings with analysis of the structural overview. It enables new ways of reading Thomas Mann; but also new ways of conceptualising narrative time in any literary work, not only in Mann's fiction and not only in texts that foreground the narration of time. The range of Mann's novels, novellas, and short stories is compared with other nineteenth- and twentieth-century works in German and in English to suggest a comprehensive approach to considering time in narrative.

**Shadow Economies and Irregular Work in Urban Europe** - Thomas Buchner 2011

Shadow economies and irregular work are not new phenomena. Before the rise of the modern welfare state, there were a broad range of diverse economic activities which were regarded as irregular, though not necessarily illicit. Although they constituted an important part of economic life, such irregular and informal practices have not yet been studied more closely and from a comprehensive perspective in modern

historical research. The articles in this volume explore multifaceted aspects of informal economies and irregular work in European cities from the 16th to the early 20th centuries. The book provides a historical perspective to ongoing debates about the crisis of the modern labor society and the relationship between (informal) work, public welfare, and the state. (Series: Austria: Forschung und Wissenschaft - Geschichte - Vol. 2)

**'A womans answer is neuer to seke': Early Modern Jestbooks, 1526-1635** - Ian Munro 2016-12-05  
By turns witty and inane, crude and learned, scurrilous and moralistic, jestbooks offer an important and often overlooked viewpoint on the lives of women in early modern England. This volume reproduces seven jestbooks with connections to early modern Englishwomen as well as showing something of the broad genre itself. Four have a direct connection to women through their jests and framing (Wyddow Edyth, VWestward for Smelts, Long Meg of VWestminster, and Pasqvils Iests), excerpts from two books specifically focus on women in some sections (The Schoolemaster and Wits Fittes and Fancies) and the volume also includes the extremely popular, general jestbook (A C. Mery Talys).

**Jung's Answer to Job** - Paul Bishop 2002

Greeted with controversy on its publication, Answer to Job has long been neglected by many serious commentators on Jung. In *Jung's Answer to Job: A Commentary*, the author argues that such neglect is due to a failure to understand Jung's objectives in this text and offers a new way of reading the work. The book places Answer to Job in the context of biblical commentary, and then examines the circumstances surrounding its compositions and immediate reception. A detailed commentary on the work discusses the major methodological presuppositions informing it and explains how key Jungian concepts operate in the text. *Jung's Answer to Job: A Commentary* unravels Jung's narrative by reading it in the chronological order

of the biblical events in analyses and the books to which it refers, offering a comprehensive re-reading of Jung's text. An original argument put across in a scholarly and accessible style provides an essential framework for understanding the work.

*Odd Man Out* - Carol M. Armstrong 2003

In *Odd Man Out*, Carol Armstrong offers an important study of Edgar Degas's work and reputation. Armstrong grapples with contradictory portrayals of Degas as odd man out within the modernist canon: he was a realist whom realists rejected; a storyteller in pictures who did not satisfy novelist-critics; a painter of modern life who was not a modernist; a member of the impressionist group who was no impressionist. Armstrong confronts these and other paradoxes by analyzing the critical vocabularies used to describe Degas's work. By reading several groups of the artist's images through the lens of a sequence of critical texts, Armstrong shows how our critical and popular expectations of Degas are overturned and subverted. This is a reprint of the book first published by the University of Chicago Press in 1991.

**The Curse of Ham in the Early Modern Era** - David M. Whitford 2017-07-05

For hundreds of years, the biblical story of the Curse of Ham was marshalled as a justification of serfdom, slavery and human bondage. According to the myth, having seen his father Noah naked, Ham's is cursed to have his descendants be forever slaves. In this new book the Curse of Ham is explored in its Reformation context, revealing how it became the cornerstone of the Christian defence of slavery and the slave trade for the next four hundred years. It shows how broader medieval interpretations of the story became marginalized in the early modern period as writers such as Annius of Viterbo and George Best began to weave the legend of Ham into their own books, expanding and adding to the legend in ways that established a firm connection between Ham, Africa, slavery and race. For although in the original biblical text Ham himself is not cursed and race is never mentioned, these writers helped develop the story of Ham into an ideological and theological defence for African slavery, at the precise time that the Transatlantic Slave Trade began to establish itself as a major part of the European economy during the sixteenth and seventeenth centuries. Skilfully weaving together elements of theology, literature and history, this book provides a fascinating insight into the ways that issues of religion, economics and race could collide in the Reformation world. It will prove essential reading, not only for those with an interest in early modern history, but for anyone wishing to try to comprehend the origins of arguments used to justify slavery and segregation right up to the 1960s.
