**Restrictive Covenants in Employment Contracts and Other Mechanisms for Protection of Corporate Confidential Information** - Pascal Lagesse 2006-01-01

The idea for this book came about following the International Bar Association's annual conference that was held in Prague in September of 2005. One of the sessions at this conference co-chaired by Pascale Lagesse and Mariann Norrbom was entitled 'Restrictive covenants in employment contracts and other mechanisms for protection of corporate confidential information.' International panelists consisted of members of the legal profession, corporate representatives and a court justice. Discussions focused on key issues and the concerns companies have when seeking to protect their confidential information, and insight was given into what employers can do in order to ensure that their employees do not take valuable company information with them upon leaving the company. Using a case study as a basis, particular emphasis was placed on non-solicitation and non-compete covenants, and the extent to which an employer can rely on such covenants when protecting his interests. The specific situation of a key employee who left her employer to join a competitor was addressed, and the types of action the employer could take in order to avoid the solicitation of his clients and staff and prevent his employees from competing against him were discussed. This book picks up where the session left off, and consists of no less than 13 contributions from individuals from 5 continents. Each country representative has been asked to respond to a series of pertinent questions on the subjects of restrictive covenants and protection of confidential information, in order to give a comparative overview of how these issues are treated in different jurisdictions. This comprehensive publication will be a valuable resource tool for legal practitioners, employers, HR professionals and anyone interested in the field of employment law.

**Ditch That Textbook** - Matt Miller 2015-04-13

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning. In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

**Email Less Talk More** - Martin Rola 2008-10-01

This timely book addresses the excessive and misguided use of email and helps all of us come to a more sensible view of when, where, and why to use it. It also goes beyond email to provide a roadmap for effective workplace communication in general. You and your organization will be able to go further, faster that is, be more productive. Dr. Mark Frohman, President of Frohman Consulting Corporation and author of The Purpose Driven Organization, Mastering Priorities, and Involving Others in Problem Solving "I have key staff members chained to their desks daily clearing email and complaining that many emails are not required, or at least they did not need to be copied. I know as an organization we need to communicate more effectively. I look forward to passing this book onto my staff and watching the improvements." Terry P. Roche, President of Thomas Engineering Corporation I spent many years trying to better manage email but seemed to be losing ground on productivity. This book showed me the real solution use email for what it is good for, but don't overuse it. It is easy and fun to read and is packed with much more information than typical self-help and business productivity books. I've become a more effective communicator, improved my work/life balance, and have helped my staff become more productive as well. Don Silvestri, V.P. of Marketing & Public Relations for Open Sports Network & former Director of Marketing for CBS SportsLine Email Less Talk More is the first book to provide solutions to problems created by workplace email overuse. Instead of treating the symptoms of reduced productivity and information overload with email management techniques and email etiquette, this book addresses the actual root cause. Email is a great communication method for many cases but not for all cases. The book teaches people to choose the most effective communication means email, voicemail, meetings, or direct conversation based on the situation. It challenges readers to consider alternate communication methods before hitting COMPOSE or REPLY. It also provides solutions to many other productivity and work/life balance problems triggered by email and PDAs becoming the new preferred communication tools. Using an easy-to-read story format set in office, home, and family vacation settings, it shows how improper workplace communication especially email can adversely impact productivity, relationships, and personal lives. It provides many examples where email appears to be the most efficient communication tool but is actually much less productive for both the sender and recipients. The lessons from the book are summarized in easy-to-use rules that provide the Do's & Don'ts of effective communication."

**Congressional Communication in the Digital Age** - Jocelyn Evans 2017-07-06

Communication defines political representation. At the core of the representational relationship lies the interaction between principal and agent; the quality of this relationship is predicated upon the accessibility of effective channels of communication between the constituent and representative. Over the past decade, congressional websites have become the primary way constituents communicate with their members and a prominent place for members to communicate with constituents. Yet, as we move toward the third decade of the 21st century, little work has systematically analyzed this forum as a distinct representational space. In this book, Jocelyn Evans and Jessica Hayden offer a fresh, timely, and mixed-methods approach for understanding how the emergence of virtual offices has changed the representational relationship between constituents and members of Congress. Utilizing strong theoretical foundations, a broad historical perspective, elite interviews, and rich original datasets, Evans and Hayden present evidence that virtual offices operate as a distinct representational space, and they demonstrate that their use has resulted in unprecedented and ill-understood changes in representational behavior. Congressional Communication in the Digital Age contributes to the scholarship on representation theory and its application to the contemporary Congress. It is valuable reading for students and researchers interested in American politics, political communication, and legislative politics.
