

Statistics Kenya Unsd

Yeah, reviewing a book **Statistics Kenya Unsd** could mount up your close links listings. This is just one of the solutions for you to be successful. As understood, triumph does not recommend that you have fabulous points.

Comprehending as competently as covenant even more than additional will have enough money each success. adjacent to, the statement as capably as perception of this Statistics Kenya Unsd can be taken as competently as picked to act.

Contraceptive Use by Method 2019 - United Nations 2020-01-10

This data booklet highlights estimates of the prevalence of individual contraceptive methods based on the World Contraceptive Use 2019 (which draws from 1,247 surveys for 195 countries or areas of the world) and additional tabulations obtained from microdata sets and survey reports. The estimates are presented for female and male sterilisation, intrauterine device (IUD), implant, injectable, pill, male condom, withdrawal, rhythm and other methods combined.

World Development Indicators 2014 - World Bank 2014-05-12

World Development Indicators (WDI) is the World Bank's premier annual compilation of data about development. This year's print edition and e-book have been redesigned to allow users the convenience of easily linking to the latest data on-line.

World Economic Situation and Prospects 2020 - United Nations 2020-01-16

This is the United Nations definitive report on the state of the world economy, providing global and regional economic outlook for 2020 and 2021. Produced by the Department of Economic and Social Affairs, the five United Nations regional commissions, the United Nations Conference on Trade and Development, with contributions from the UN World Tourism Organization and other intergovernmental agencies.

The State of Open Data - Davies, Tim 2019-05-22

It's been ten years since open data first broke onto the global stage. Over the past decade, thousands of programmes and projects around the world have worked to open data and use it to address a myriad of social and economic challenges. Meanwhile, issues related to data rights and privacy have moved to the centre of public and political discourse. As the open data movement enters a new phase in its evolution, shifting to target real-world problems and embed open data thinking into other existing or emerging communities of practice, big questions still remain. How will open data initiatives respond to new concerns about privacy, inclusion, and artificial intelligence? And what can we learn from the last decade in order to deliver impact where it is most needed? The State of Open Data brings together over 60 authors from around the world to address these questions and to take stock of the real progress made to date across sectors and around the world, uncovering the issues that will shape the future of open data in the years to come.

Practical Guidebook on Data Disaggregation for the Sustainable Development Goals - Asian Development Bank 2021-05-01

The "leave no one behind" principle espoused by the 2030 Agenda for Sustainable Development requires measures of progress for different segments of the population. This entails detailed disaggregated data to identify subgroups that might be falling behind, to ensure progress toward achieving the Sustainable Development Goals (SDGs). The Asian Development Bank and the Statistics Division of the United Nations Department of Economic and Social Affairs developed this practical guidebook with tools to collect, compile, analyze, and disseminate disaggregated data. It also provides materials on issues and experiences of countries regarding data disaggregation for the SDGs. This guidebook is for statisticians and analysts from planning and sector ministries involved in the production, analysis, and communication of disaggregated data.

Family Planning and the 2030 Agenda for Sustainable

Development (Data Booklet) - United Nations Publications 2019-10-31

This booklet is based on the Estimates and Projections of Family Planning Indicators 2019, which includes estimates at the global, regional and country level of contraceptive prevalence, unmet need for family planning and SDG indicator 3.7.1 "Proportion of women who have their need for family planning satisfied by modern methods".

Aging in Sub-Saharan Africa - National Research Council 2006-11-10

In sub-Saharan Africa, older people make up a relatively small fraction of the total population and are supported primarily by family and other kinship networks. They have traditionally been viewed as repositories of information and wisdom, and are critical pillars of the community but as

the HIV/AIDS pandemic destroys family systems, the elderly increasingly have to deal with the loss of their own support while absorbing the additional responsibilities of caring for their orphaned grandchildren. Aging in Sub-Saharan Africa explores ways to promote U.S. research interests and to augment the sub-Saharan governments' capacity to address the many challenges posed by population aging. Five major themes are explored in the book such as the need for a basic definition of "older person," the need for national governments to invest more in basic research and the coordination of data collection across countries, and the need for improved dialogue between local researchers and policy makers. This book makes three major recommendations: 1) the development of a research agenda 2) enhancing research opportunity and implementation and 3) the translation of research findings.

World Migration Report 2020 - United Nations 2019-11-27

Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

The Millennium Development Goals Report 2014 - United Nations 2014-09-08

The report presents the yearly assessment of global progress towards the Millennium Development Goals (MDGs), determining the areas where progress has been made, and those that are lagging behind. It pinpoints the areas where accelerated efforts are needed to meet the MDGs by 2015. The report is based on a master set of data compiled by the Inter-Agency and Expert Group on MDG indicators led by the Statistics Division of the Department of Economic and Social Affairs.

Handbook on Constructing Composite Indicators: Methodology and User Guide - OECD 2008-08-22

A guide for constructing and using composite indicators for policy makers, academics, the media and other interested parties. In particular, this handbook is concerned with indicators which compare and rank country performance.

Population Situation Analysis (PSA) - United Nations 2011-05

"Provides the basis for an integrated appraisal of population and reproductive health dynamics and their linkages and impacts on poverty, inequality and development. Furthermore, by integrating a micro and macro analytical approach, the PSA makes the interactions between individual behaviour and demographic dynamics explicit."--Foreword.

Indirect Techniques for Demographic Estimation - United Nations. Department of International Economic and Social Affairs. Population Division 1983

Principles and Recommendations for a Vital Statistics System - United Nations 2014

The publication is an international standard on the design and operation of an efficient and accurate vital statistics system at national level. It provides guidelines on collection, compiling and disseminating vital statistics. More specifically it contains (a) basic principles for a vital statistics system; (b) uses of vital statistics and civil registration records; (c) topics to be covered in a vital statistics system; (d) sources of vital statistics and how they function; (e) quality assurance in the vital statistics system and (f) strategies in improving civil registration and vital statistics systems in countries. It also informs policy makers and the general public on the importance of vital statistics and hence further improving the vital statistics system.

Key World Energy Statistics 2015 - International Energy Agency

Judicial Bench Book on Violence Against Women in

Commonwealth East Africa - Commonwealth Secretariat 2017-01-09
The Judicial Bench Book on Violence Against Women in Commonwealth East Africa situates VAW in Kenya, Rwanda, Tanzania and Uganda. By placing VAW within the socio-cultural and legal context of the region, the bench book will enhance the ability of judicial officers to handle cases of VAW, both within a human rights as well as a gender perspective.

Millennium Development Goals Report 2015 - 2015-09-29

This report presents the yearly assessment of global progress towards the Millennium Development Goals (MDGs), determining the areas where progress has been made, and those that are lagging behind. The report is based on a master set of data compiled by the Inter-Agency and Expert group on MDG indicators led by the Statistics Division of the Department of Economic and Social Affairs.

World Population Prospects 2019: Highlights - United Nations Publications 2019-07-23

The United Nations population estimates and projections form a comprehensive set of demographic data to assess population trends at the global, regional and national levels. They are used in the calculation of many of the key development indicators commonly used by the United Nations system, including for more than one third of the indicators used to monitor progress towards the achievement of the Sustainable Development Goals. The 2019 revision of the World Population Prospects is the twenty-sixth edition of the official United Nations population estimates and projections, which have been prepared since 1951 by the Population Division of the Department of Economic and Social Affairs. The 2019 revision presents population estimates from 1950 until the present for 235 countries or areas, which have been developed through country-specific analyses of historical demographic trends. It builds on previous revisions by incorporating additional results from the 2010 and 2020 rounds of national population censuses as well as information from vital registration and recent nationally representative household sample surveys. The 2019 revision also presents population projections to the year 2100 that reflect a range of plausible outcomes at the global, regional and country levels. These Highlights summarise key population trends described by the estimates and projections presented in World Population Prospects 2019.

Big Data and Global Trade Law - Mira Burri 2021-07-29

An exploration of the current state of global trade law in the era of Big Data and AI. This title is also available as Open Access on Cambridge Core.

World Statistics Pocketbook 2020 - United Nations Publications 2020-10-12

This publication is an annual compilation of key statistical indicators prepared by the United Nations Statistics Division of the Department of Economic and Social Affairs. The topics covered include: agriculture, balance of payments, education, energy, environment, food, gender, health, industrial production, information and communication, international finance, international tourism, international trade, labour, migration, national accounts, population and prices.

Unctad Handbook of Statistics 2020 - United Nations 2021-05-05

First launched in 1967 this handbook has evolved to incorporate new statistics to ensure that readers have access to the best possible information available. This edition continues in this tradition and introduces 'nowcasted' estimates for total merchandised trade, total services trade and GDP on a worldwide basis.

Managing Statistical Confidentiality & Microdata Access - Conference of European Statisticians 2007

These guidelines have been prepared a Task Force set up by the Conference of European Statisticians, with two main objectives.- The first is to foster greater uniformity of approach by countries to allow better access to microdata for the research community. The second is to produce guidelines and supporting case studies, which will help countries improve their arrangements for providing access to microdata.

Designing Household Survey Samples - United Nations 2008

The publication provides practical guidelines to survey sample design, data processing and analysis of large-scale household surveys. It underscores the importance of developing a good implementation strategy for surveys in order to generate accurate survey results by minimizing sampling and non-sampling errors. The publication covers in detail sampling strategies, sampling frames and master samples, the construction and use of sample weights, and the estimation of sampling errors for survey data. The publication covers in detail sampling strategies, sampling frames and master samples, the construction and use of sample weights, and the estimation of sampling errors for survey data. It also gives practical guidelines on the planning and execution of

surveys, the documentation and evaluation of sample designs, non-sampling errors, and data processing.

World Population Prospects - United Nations: Department of Economic and Social Affairs: Population Division Staff 2015-09-29
Contains for all fertility projection variants all essential data such as total births, total deaths, total net-migration, the respective crude rates, life expectancy at birth by sex, infant and child mortality, summary measures of adult mortality and deaths by broad age groups, total fertility, net-reproduction rate and population growth rates.

Principles and Recommendations for Population and Housing Censuses - United Nations. Statistical Division 2008

The population and housing census is part of an integrated national statistical system, which may include other censuses (for example, agriculture), surveys, registers and administrative files. It provides, at regular intervals, the benchmark for population count at national and local levels. For small geographical areas or sub-populations, it may represent the only source of information for certain social, demographic and economic characteristics. For many countries the census also provides a solid framework to develop sampling frames. This publication represents one of the pillars for data collection on the number and characteristics of the population of a country.

World Statistics Pocketbook 2017 - United Nations Publications 2017-12-05

The 2017 edition of the World Statistics Pocketbook is the forty-first in a series of annual compilations of over 50 key statistical indicators from more than 20 international statistical sources and are presented in one-page profiles for 30 world geographical regions and 232 countries or areas. Organised into five (5) sections -- general information, economic indicators, major trading partners, social indicators, and environmental and infrastructure indicators. The indicators in the profiles cover the following topics: communication, crime, development assistance, education, energy, environment, finance, gender, health, international tourism, and science and technology, to name a few.

Farm data management, sharing and services for agriculture development - Food and Agriculture Organization of the United Nations 2021-02-26

This book aims to strengthen the skills of professionals who use, manage data for the benefit of farmers and farmers organizations by exposing them to the topics of importance of data in the agriculture value chain and how new and existing technologies, products and services can leverage farm level and global data to improve yield, reduce loss, add value and increase profitability and resilience.

World Food and Agriculture - Statistical Yearbook 2020 - Food and Agriculture Organization of the United Nations 2020-10-20

This publication offers a synthesis of the major factors at play in the global food and agricultural landscape. Statistics are presented in four thematic chapters, covering the economic importance of agricultural activities, inputs, outputs and factors of production, their implications for food security and nutrition and their impacts on the environment. The Yearbook is meant to constitute a primary tool for policy makers, researchers and analysts, as well as the general public interested in the past, present and future path of food and agriculture.

World Statistics Pocketbook 2021 - United Nations Publications 2021-11

The World Statistics Pocketbook is an annual compilation of key statistical indicators prepared by the United Nations Statistics Division of the Department of Economic and Social Affairs.

Principles and Recommendations for Population and Housing Censuses, Revision 3 - United Nations Department of Economic and Social Affairs 2017-11-01

Since its early years, the United Nations has issued a series of international recommendations on population and housing censuses under the title "Principles and Recommendations for Population and Housing Censuses". These publication series, which are based on good national practices in census taking, are widely used by national statistical offices and census officials in countries throughout the world in planning and carrying out population and housing censuses, as well as other related data collection activities, particularly demographic and socio-economic surveys. The recommendations provide guidance on the main characteristics of population and housing censuses, general material on census methodology, planning, and operations, and more detailed guidance on the content of censuses, in terms of topics for population and also housing. These series are currently revised to assist countries in preparing for the 2020 round of censuses by taking into account changes in methodology, technology, as well as the need for better data dissemination and utilization.

The World's Women 2015 - United Nations Department of Economic and Social Affairs 2015-12-07

This publication presents statistics and analysis on the status of women and men in the world, highlighting the current situation and changes over time. It is the sixth in a series published since the World Conference on Women in 1995. It emphasizes that progress towards the goal of gender equality has been made in most areas of concern, although uneven and at low pace. Through a life cycle approach, it reveals the challenges and opportunities faced by women at different stages of life and based on where they reside. Trajectories of women and men are highlighted in the statistical findings of the analysis undertaken on population and families, health, education, work, power and decision-making, violence against women, environment and poverty.

Measuring the Economically Active in Population Censuses - 2010

The Handbook provides guidance on the measurement of economic characteristics in population censuses, based on relevant experiences of countries, with a particular focus on the questions used and the requirements for processing of responses. The Handbook is intended to provide census planners with a variety of approaches to assess the questions and methods of collecting economic characteristics used in their national census, as they evaluate the performance in the past decade and plan for the 2010 round of censuses (2005-2014). Users of census results may also find the present text useful when evaluating the quality of census results.

Government Finance Statistics Manual - Sage De Clerck 2015-03-10

The Government Finance Statistics Manual 2014 (GFSM 2014)—describes a specialized macroeconomic statistical framework—the government finance statistics (GFS) framework—designed to support fiscal analysis. The manual provides the economic and statistical reporting principles to be used in compiling the statistics; describes guidelines for presenting fiscal statistics within an analytic framework that includes appropriate balancing items; and is harmonized with other macroeconomic statistical guidelines.

World Urbanization Prospects - United Nations Publications 2019-10-18

The report presents findings from the 2018 revision of World Urbanization Prospects, which contains the latest estimates of the urban and rural populations or areas from 1950 to 2018 and projections to 2050, as well as estimates of population size from 1950 to 2018 and projections to 2030 for all urban agglomerations with 300,000 inhabitants or more in 2018. The world urban population is at an all-time high, and the share of urban dwellers, is projected to represent two thirds of the global population in 2050. Continued urbanization will bring new opportunities and challenges for sustainable development.

The Least Developed Countries Report 2020 - United Nations 2021-01-06

This series contains the decisions of the Court in both the English and French texts.

Sustainable Development Report 2021 - Jeffrey Sachs 2021-10-14

The Sustainable Development Report 2021 features the SDG Index and Dashboards, the first and widely used tool to assess country performance on the UN Agenda 2030 and the Sustainable Development Goals. The report analyses and outlines what needs to happen for the Decade of Action and Delivery of the SDGs. In order to build back better following the Covid-19 pandemic, especially low-income countries will need increased fiscal space. The report frames the implementation of the SDGs in terms of six broad transformations. The authors examine country performance on the SDGs for 193 countries using a wide array of indicators, and calculate future trajectories, presenting a number of best practices to achieve the historic Agenda 2030. The views expressed in this report do not reflect the views of any organizations, agency or programme of the United Nations. This title is available as Open Access on Cambridge Core.

World Trade Statistical Review 2019 - World Trade Organization 2019-10-07

A comprehensive overview of the latest developments in world trade, covering the details of merchandise trade by product and trade in commercial services

World Development Indicators 2016 - World Bank 2016-04-29

World Development Indicators 2016 provides a compilation of relevant, high-quality, and internationally comparable statistics about global development and the fight against poverty. It is intended to help policymakers, students, analysts, professors, program managers, and citizens find and use data related to all aspects of development, including those that help monitor progress toward the World Bank Group's two

goals of ending poverty and promoting shared prosperity. Six themes are used to organize indicators—world view, people, environment, economy, states and markets, and global links. WDI 2016 includes: •A selection of the most popular indicators across 214 economies and 14 country groups organized into six WDI themes •A new section on the Sustainable Development Goals (SDGs) has replaced the one on Millennium Development Goals (MDGs). •The SDG section covers all 17 goals, and important targets to achieve these goals. Each goal has been presented in a maximum 2-page spread with selected indicators to explain the targets. •Each of the remaining sections includes an introduction, a map, a table of the most relevant and popular indicators for that theme together with a discussion of indicator compilation methodology. •A user guide describing resources available online and on mobile apps.

Download the WDI DataFinder Mobile App and other Data Apps at data.worldbank.org/apps. WDI DataFinder is a mobile app for browsing the current WDI database on smartphones and tablets, using iOS and Android, available in four languages: English, French, Spanish, and Chinese. Use the app to: •Browse data using the structure of the WDI •Visually compare countries and indicators •Create, edit, and save customized tables, charts, and maps •Share what you create on Twitter, Facebook, and via email

Big Data - Cornelia Hammer 2017-09-13

Big data are part of a paradigm shift that is significantly transforming statistical agencies, processes, and data analysis. While administrative and satellite data are already well established, the statistical community is now experimenting with structured and unstructured human-sourced, process-mediated, and machine-generated big data. The proposed SDN sets out a typology of big data for statistics and highlights that opportunities to exploit big data for official statistics will vary across countries and statistical domains. To illustrate the former, examples from a diverse set of countries are presented. To provide a balanced assessment on big data, the proposed SDN also discusses the key challenges that come with proprietary data from the private sector with regard to accessibility, representativeness, and sustainability. It concludes by discussing the implications for the statistical community going forward.

World Health Statistics 2016 - World Health Organization 2016-06-08

The World Health Statistics series is WHO's annual compilation of health statistics for its 194 Member States. The World Health Statistics 2016 focuses on the health and health-related Sustainable Development Goals (SDGs) and associated targets. It represents an initial effort to bring together available data on SDG health and health-related indicators, providing an assessment of the situation in 2016. The SDG health goal -- ensure healthy lives and promote well-being for all at all ages -- includes 13 targets, covering all major health priorities, and including the unfinished and expanded Millennium Development Goals (MDGs) agenda, four targets to address noncommunicable diseases (NCDs), mental health, injuries and environmental issues, and four "means of implementation" targets. This report also seeks to demonstrate the critical linkages between health and other SDGs by including indicators of selected health determinants and risk factors in other SDG targets. The series is produced by the WHO Department of Information, Evidence and Research, of the Health Systems and Innovation Cluster. As in previous years, World Health Statistics 2016 has been compiled using publications and databases produced and maintained by WHO technical programs and regional offices. WHO presents World Health Statistics 2016 as an integral part of its ongoing efforts to provide enhanced access to comparable high-quality statistics on core measures of population health and national health systems. Unless otherwise stated, all estimates have been cleared following consultation with Member States and are published here as official WHO figures.

Integrating a Gender Perspective Into Statistics - United Nations 2017-03-28

The primary objective of the manual is to foster a gender perspective in national statistics. Recognising that systematic integration of gender in regular statistical activities is still missing in many countries, the manual has been designed to guide a sustainable development of gender statistics. The manual provides concrete information needed to accomplish three main goals: (a) achieve a comprehensive coverage of gender issues in data production activities; (b) incorporate a gender perspective into the design of surveys or censuses, by taking into account gender issues and gender-biases in measurement; and (c) improve data analysis and data presentation and deliver gender statistics in a format easy to use by policy makers and planners.
