The Technology of Study - L. Ron Hubbard 2004-10-07

The Mind Benders - Cyril Vosper 1971

Astounding - Alec Nevala-Lee 2018-10-23

Hugo and Locus Award Finalist An Economist Best Book of the Year A Milwaukee Journal Sentinel Best Book of 2018 “An amazing and engrossing history...Insightful, entertaining, and compulsively readable.” — George R. R. Martin Astounding is the landmark account of the extraordinary partnership between four controversial writers—John W. Campbell, Isaac Asimov, Robert A. Heinlein, and L. Ron Hubbard—who set off a revolution in science fiction and forever changed our world. This remarkable cultural narrative centers on the figure of John W. Campbell, Jr., whom Asimov called “the most powerful force in science fiction ever.” Campbell, who has never been the subject of a biography until now, was both a visionary author—he wrote the story that was later filmed as *The Thing*—and the editor of the groundbreaking magazine best known as *Astounding Science Fiction*, in which he discovered countless legendary writers and published classic works ranging from the *I, Robot* series to *Dune*. Over a period of more than thirty years, from the rise of the pulps to the debut of *Star Trek*, he dominated the genre, and his three closest collaborators reached unimaginable heights. Asimov became the most prolific author in American history; Heinlein emerged as the leading science fiction writer of his generation with the novels *Starship Troopers* and *Stranger in a Strange Land*; and Hubbard achieved lasting fame—and infamy—as the founder of the Church of Scientology. Drawing on unexplored archives, thousands of unpublished letters, and dozens of interviews, Alec Nevala-Lee offers a riveting portrait of this circle of authors, their work, and their tumultuous private lives. With unprecedented scope, drama, and detail, *Astounding* describes how fan culture was born in the depths of the Great Depression; follows these four friends and rivals through World War II and the dawn of the atomic era; and honors such exceptional women as Doña Campbell and Leslyn Heinlein, whose pivotal roles in the history of the genre have gone largely unacknowledged. For the first time, it reveals the startling extent of Campbell’s influence on the ideas that evolved into Scientology, which prompted Asimov to observe: “I knew Campbell and I knew Hubbard, and no movement can have two Messiahs.” It looks unsparingly at the tragic final act that estranged the others from Campbell, bringing the golden age of science fiction to a close, and it illuminates how their complicated legacy continues to shape the imaginations of millions and our vision of the future itself. “Enthralling...A clarion call to enlarge American literary history.” — Washington Post “Engrossing, well-researched... This sure-footed history addresses important issues, such as the lack of racial diversity and gender parity for much of the genre’s history.” — Wall Street Journal “A gift to science fiction fans everywhere.” — Sylvia Nasar, New York Times bestselling author of *A Beautiful Mind*

Scientology, a History of Man - La Fayette Ron Hubbard 2007

This book claims to unravel history with an "E-Meter", describing what the author believes are the principal "incidents on the whole track to be found in any human being". These incidents include electronic implants, entities, the genetic track, between-lives incidents, the relationship of the Genetic Entity to Theta Beings, and so on. Also presented are Hubbard's theory of how bodies evolved and why human's got trapped in them as well as his descriptions of how specific incidents reveal "the true story of between-lives" and "the insidious nature of electronics in enslaving thetans".

Dianetics - L. Ron Hubbard 2007

Albert Einstein said: We are using only 10% of our mental potential. Dianetics tells you how you can free a significantly larger part of your potential. Self confidence, harmonic relationships and a positive attitude towards life can absolutely be achieved. It makes Positive Thinking a reality. You can achieve your goals with more certainty if you are able to find the cause of upsets, unwanted reactions or emotions. The human mind is not a mysterious puzzle - impossible to resolve. Read and work with Dianetics, see how it works for you and make up your own mind. The book gives a clear description of what is happening in the mind and explains a practical method, enabling you to explore your own subconscious, and rid yourself of what holds you down, resulting in increased IQ and well-being. Watching the DVD called 'How to Use Dianetics' along with the book is recommended to have a visual illustration of the concepts and the practical application.

The Millionaire Booklet - Grant Cardone 2016-06-16

I want to help you reach millionaire status, even get rich, if you believe that you deserve to be the person in the room that writes the check for a million dollars, ten million or even 100 million—let's roll.

Be Obsessed or Be Average - Grant Cardone 2016-10-11

From the millionaire entrepreneur and New York Times bestselling author of *The 10X Rule* comes a bold and contrarian wake-up call for anyone truly ready for success. One of the 7 best motivational books of 2016, according to Inc. Magazine. Before Grant Cardone built five successful companies (and counting), became a multimillionaire, and wrote bestselling books... he was broke, jobless, and drug-addicted. Grant had grown up with big dreams, but friends and family told him to be more reasonable and less demanding. If he played by the rules, they said, he could enjoy everyone else's version of middle class success. But when he tried it their way, he hit rock bottom. Then he tried the opposite approach. He said NO to the haters and naysayers and said YES to his burning, outrageous, animal obsession. He reclaimed his obsession with wanting to be a business rock star, a super salesman, a huge philanthropist. He wanted to live in a mansion and even own an airplane. Obsession made all of his wildest dreams come true. And it can help you achieve massive success too. As Grant says, we're in the middle of an epidemic of average. The conventional wisdom is to seek balance and take it easy. But that has really just given us an excuse to be unexceptional. If you want real success, you have to know how to harness your obsession to rocket to the top. This book will give you the inspiration and tools to break out of your cocoon of mediocrity and achieve your craziest dreams. Grant will teach you how to: · Set crazy goals—and reach them, every single day. · Feed the beast: when you value money and spend it on the right things, you get more of it. · Shut down the doubters—and use your haters as fuel. Whether you're a sales person, small business owner, or 9-to-5 working stiff, your path to happiness runs through your obsessions. It's a simple choice: be obsessed or be average.

Science of Survival - La Fayette Ron Hubbard 2007

Science of Survival The most useful book you will ever own. Built around the Hubbard Chart of Human Evaluation, Science of Survival provides the first accurate prediction of human behavior. Included on the chart are all the manifestations of an individual's survival potential graduated from highest to lowest, making this the complete book on the Tone Scale. Knowing only one or two characteristics of a person and using this chart, you can plot his or her position on the Tone Scale and thereby know the rest, obtaining an accurate index of their entire personality, conduct and character. Before this book the world was convinced that cases could not improve but only deteriorate. Science of Survival presents the idea of different states of case and the brand-new idea that one can progress upward on the Tone Scale.

Dianetics, the Modern Science of Mental Health - La Fayette Ron Hubbard 1971

Bare-Faced Messiah - Russell Miller 2016-01-07

Bare-Faced Messiah tells the extraordinary story of L. Ron Hubbard, a penniless science-fiction writer who founded the Church of Scientology, became a millionaire prophet and convinced his adoring followers that he alone could save the world. According to his 'official' biography, Hubbard was an explorer, engineer, scientist, war hero and philosopher. But in the words of a Californian judge, he was schizophrenic, paranoid and a pathological liar. What is not in dispute is that Hubbard was one of the most bizarre characters of the twentieth century. Bare-Faced Messiah exposes the myths surrounding the fascinating and mysterious founder of the Church of Scientology - a man of hypnotic charm and limitless imagination - and provides the definitive account of how the notorious organisation was created.

Online Counseling - Ron Kraus 2010-12-08

Providers and consumers of mental health services are increasingly making use of the internet to gather information, consult, and participate in psychotherapy. This Handbook gives practical insight into how professionals can translate their practice to an online medium. Divided into four sections, section one provides an overview of how the internet has become an integral part of people's lives, and the research to date on the use and effectiveness of counseling online, as well as idiosyncrasies of online behavior and communication. Section two discusses the "practical" aspects of counseling online, including technological issues, ethical and legal issues, and business issues. Section three focuses on performing psychotherapy online, including online treatment strategies and skills, working with online groups, online testing and assessment, and international and multicultural issues in online counseling. The last section discusses the future of online counseling. The Handbook is intended for those professionals interested in the burgeoning telehealth movement and to those practicing therapists looking for ways to expand their practices online and/or to help round out treatment to specific patients who might benefit from online therapy in addition to traditional delivery. * Foreword by Morgan Sammons and Patrick DeLeon, past president of the American Psychological Association * The first comprehensive textbook designed to give clinicians and mental health students everything they need to understand and start providing mental health services via the Internet * Each chapter includes study questions and key terms, making it ideal for use in graduate or continuing education settings * Includes clear and comprehensive chapters on research and technology related to online counseling * Contributors include past, present, and elected presidents of the International Society for Mental Health Online (ISMHO), the Internet's leading resource for professionals interested in online counseling and other methods of delivering mental health services via the Internet

Clear Body, Clear Mind - L. Ron Hubbard 2013

We live in a drug-oriented society. Drugs pervade our world -- from street drugs and medical drugs, to say nothing of the latest "feel-good" pharmaceuticals. Add to that the thousands of toxic substances we are

exposed to on a daily basis, including household chemicals, food preservatives and pesticides, and it's easy to see that no one is immune to this crisis. Through the course of his research into the effects of drugs on the human mind, L.Ron Hubbard made a landmark discovery. Namely, that LSD appeared to remain in a person's body long after they stopped taking the drug. This breakthrough explained why someone who had used LSD in the past could suddenly reactivate a "trip" even years later. His further research revealed that many other toxic substances could also remain in the body, producing negative effects for years to come. The question remained: how can you eradicate these harmful drugs and toxins from your body? The answer is the Purification Program developed by Mr. Hubbard. With the inclusion of a precise regimen of vitamins, minerals and oils, we are able to work toward restoring the biochemical balance of the body and make it possible for the body to reconstruct itself from the damage done by drugs and other biochemical substances. - Publisher.

The Magician's Book - Laura Miller 2008-12-03

Enchanted by Narnia's fantastic world as a child, prominent critic Laura Miller returns to the series as an adult to uncover the source of these small books' mysterious power by looking at their creator, Clive Staples Lewis. What she discovers is not the familiar, idealized image of the author, but a more interesting and ambiguous truth: Lewis's tragic and troubled childhood, his unconventional love life, and his intense but ultimately doomed friendship with J.R.R. Tolkien. Finally reclaiming Narnia "for the rest of us," Miller casts the Chronicles as a profoundly literary creation, and the portal to a lifelong adventure in books, art, and the imagination.

The Way To Happiness - L. Ron Hubbard 2010

SYNOPSIS The choice of actions and decisions requires skill and wisdom, not just self-interest or just group interest. Containing 21 precepts, The Way to Happiness helps guide one in those choices encountered in life. This might be the first nonreligious moral code based wholly on common sense. FULL DESCRIPTION True joy and happiness are valuable. If one does not survive, no joy and no happiness are obtainable. Trying to survive in a chaotic, dishonest and generally immoral society is difficult. Any individual or group seeks to obtain from life what pleasure and freedom from pain that they can. Your own survival can be threatened by the bad actions of others around you. Your own happiness can be turned to tragedy and sorrow by the dishonesty and misconduct of others. I am sure you can think of instances of this actually happening. Such wrongs reduce one's survival and impair one's happiness. You are important to other people. You are listened to. You can influence others. The happiness or unhappiness of others you could name is important to you. Without too much trouble, using this book, you can help them survive and lead happier lives. While no one can guarantee that anyone else can be happy, their chances of survival and happiness can be improved. And with theirs, yours will be. It is in your power to point the way to a less dangerous and happier life.

Free Zone Scientology - Aled Thomas 2021-04-08

In this novel academic study, Aled Thomas analyses modern issues surrounding boundaries and fluidity in contemporary Scientology. By using the Scientologist practice of 'auditing' as a case study, this book explores the ways in which new types of 'Scientologies' can emerge. The notion of Free Zone Scientology is characterised by its horizontal structure, in contrast to the vertical-hierarchy of the institutional Church of Scientology. With this in mind, Thomas explores the Free Zone as an example of a developing and fluid religion, directly addressing questions concerning authority, leadership and material objects. This book, by maintaining a double-focus on the top-down hierarchy of the Church of Scientology and the horizontal-fluid nature of the Free Zone, breaks away from previous research on new religions, which have tended to focus either on new religions as indices of broad social processes, such as secularization or globalization, or as exemplars of exotic processes, such as charismatic authority and brainwashing. Instead, Thomas adopts auditing as a method of providing an in-depth case study of a new religion in transition and transformation in the 21st century. This opens the study of contemporary and new religions to a series of new questions around hybrid religions (sacred and secular), and acts as a framework for the study of similar movements formed in recent decades.
