The three major categories of copyright, patent, and trademark are covered in turn—along with a fourth section on chip protection—with detailed but concise examination and analysis of such issues and topics as the following and much more: • subject matter of protection; • conditions of protection; • registration procedures; • scope of exclusive rights; • transfer of interests; • fair use; • rights in unregistered marks; • protection of computer

International Institutions and Power

Politics - Anders Wivel 2019-10-01

This book moves scholarly debates beyond the old question of whether or not international institutions matter in order to examine how they matter, even in a world of power politics. Power politics and international institutions are often studied as two separate domains, but this is in need of rethinking because today most states strategically use institutions to further their

interests. Anders Wivel, T.V. Paul, and the international group of contributing authors update our understanding of how institutions are viewed among the major theoretical paradigms in international relations, and they seek to bridge the divides. Empirical chapters examine specific institutions in practice, including the United Nations, International Atomic Energy Agency, and the European Union. The book also points the way to future research. *International Institutions and Power Politics* provides insights for both international relations theory and practical matters of foreign affairs, and it will be essential reading for all international relations scholars and advanced students.

Theories of International Relations -

Stephanie Lawson 2015-02-12

Taking as her focus the major practical issues facing scholars of international relations today, Lawson ably shows how each theory relates to situations “on the ground?”. Each chapter features case studies, questions for discussion to encourage reflection and classroom debate, guides to further reading and web resources. The study of IR is a profoundly normative enterprise, and each theoretical school has its strengths and weaknesses. *Theories of International Relations* encourages a critical, reflective approach to the study of IR theory, while emphasizing the many important and interesting things it has to teach us about the complexities and challenges of international politics today.

That same morning, gunmen stunned the world by seizing the Grand Mosque in Mecca, creating a siege that trapped 100,000 people and lasted two weeks, inflaming Muslim rage against the United States and causing hundreds of deaths. But in the days before CNN and Al Jazeera, the press barely took notice. Trofimov interviews for the first time scores of direct participants in the siege, and draws upon hundreds of newly declassified documents. Escape from Slavery - Francis Bok 2007-04-01

In this groundbreaking modern slave narrative, Francis Bok shares his remarkable story with grace, honesty, and a wisdom gained from surviving ten years in captivity. May, 1986: Selling his mother's eggs and peanuts near his village in southern Sudan, seven year old Francis Bok's life was shattered when Arab raiders on horseback, armed with rifles and long knives, burst into the quiet marketplace, murdering men and women and gathering the young children into a group. Strapped to horses and donkeys, Francis and others were taken north, into lives of slavery under wealthy Muslim farmers. For ten years, Francis lived alone in a shed near the goats and cattle that were his responsibility. Fed with scraps from the table, slowly learning bits of an unfamiliar language and religion, the boy had almost no human contact other than his captor's family. After two failed attempts to escape-each bringing severe beatings and death threats-Francis finally escaped at age seventeen, a dramatic breakaway on foot that was his final chance. Yet his slavery did not end there, for even as he made his way toward the capital city of Khartoum, others sought to deprive him of his freedom.

Determined to avoid that fate and discover what had happened to his family on that terrible day in 1986, the teenager persevered through prison and refugee camps for three more years, winning the attention of United Nations officials and being granted passage to America. Now a student and an anti-slavery activist, Francis Bok has made it his life mission to combat world slavery. His is the first voice to speak for an estimated twenty seven million people held against their will in nearly every nation, including our own. Escape from Slavery is at once a riveting adventure, a story of desperation and triumph, and a window revealing a world that few have survived to tell.
