Best in Show - 2020-02-04

Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of *The Dogist: Photographic Encounters with 1,000 Dogs* by Elias Weiss Friedman, *Dogs* by Lewis Blackwell and Tim Flach, and *Underwater Dogs* by Seth Casteel

Violence in Colombia - 2000

Colombia, one of South Americas oldest, middle-income democracies, has developed rapidly despite a fifty year "simmering" civil war and increasing levels of urban and rural crime and violence. In the past decade, however, the scale and intensity of violence has changed from a marginal conflict to generalized violence that now dominates the daily lives of most citizens. As remote guerilla activity has turned into country-wide "war," bringing in paramilitary groups, drug cartels, and other social actors, so too the causes of violence have changed. These have included both external events such as the collapse of the Cold War, as well as internal changes relating to economic liberalization, coal and oil developments and the impact of the global trade in illicit narcotics. Violence in Colombia is highly complex not only because of the different categories, but also due to its multiple causes. This paper combines disparate existing theories to develop an integrated framework that identifies four different levels of causality: structural, institutional, interpersonal, and individual. It recognizes the mutually reinforcing role played by factors at different levels of causality. Underlying the causes of violence in Colombia is minimal state presence in many parts of the country, widespread corruption and impunity, high levels of societal acceptance of violence, and a regionally fragmented country.

Yamaha ATVs Banshee, Warrior and Raptor 350 - John Haynes 2011-04-01

Bills of Exchange and Bankers' Documentary Credits - William Hedley 2020-11-26

Bills of exchange and bankers' documentary credits are the fundamental financial instruments and mechanism of settlement for international trading transactions. Bills of Exchange and Bankers' Documentary Credits, 4th Edition provides a highly readable, yet in-depth account of the law and practice relating to bills of exchange, cheques and bankers documentary credits. The authors explain how the Bills of Exchange and other instruments work in practice, drawing particular attention to the problems which are likely to arise and how best to resolve them.

Furthermore, because the parties to financial transactions are often based in different countries, it deals with jurisdiction and choice of law to enable you to make the most informed and profitable choices.

The Politics of Ecosystem Management - Hanna Cortner 1999

Resource management in the United States is undergoing a fundamental change. Traditional sustained-yield approaches that focus on commodity production and human resource use are steadily giving way to ecological approaches, often referred to as ecosystem management, that have long-

term ecological sustainability as their primary goal. To achieve that goal, ecosystem management emphasizes socially defined goals and objectives, integrated and holistic science, collaborative decision making, and adaptable institutions. Political considerations are an essential component of ecosystem management, yet its socio-political context has been largely ignored by those studying and writing on the subject. The Politics of Ecosystem Management is the first book to focus entirely on the political challenges facing ecosystem management as it moves from theory to practice. The authors examine: the history of natural resource management in the United States the theory behind ecosystem management potential inconsistencies and contradictions in the themes of ecosystem management political philosophies that undergird traditional resource management alternative political principles inherent in ecosystem management opportunities and barriers for achieving collaborative ecosystem management The Politics of Ecosystem Management considers the sweeping and profound changes that will be required of the American governance system -- its political philosophy, institutions, notions of citizenship, and politics, as well its resource management practices -- if the shift to ecosystem management is to be realized. It is a lucid and accessible volume that represents a vital contribution to the literature for students, researchers, and professionals involved with any aspect of developing and implementing ecosystem-based approaches to resource management.
